

## **Hyde High School**

### **Anti-radicalisation**

#### **Delivery plan**

---

#### **Rationale**

As part of the governments 'Prevent' strategy, Hyde High School will ensure that all students receive information and guidance on radicalisation and on-line propaganda/recruitment. Students and staff will be aware of the channels to follow should there be a possible risk and required intervention.

#### **Aims**

- To ensure that all staff receive appropriate training that enables them to identify signs that there is a risk of a student being drawn into terrorism
- To protect and reduce the risk of students being radicalised (see e-safety plan)
- To engage with and inform parents of the possible signs of radicalisation.
- To ensure all stakeholders are familiar with the procedure in order to make a referral and the Chanel programme.
- To reflect the diverse cultures of our students, the school will ensure that all anti-radicalisation advice and documents are available in both English and Bengali.

#### **Strategy**

As part of our safeguarding procedures, Hyde High School has implemented a 5 point strategy in order to protect its students from radicalisation:

- An e-safety programme in KS3 which covers the following key area:
  - Extremist propaganda
  - Definitions of extremism
  - Case studies/consequences (London Bridge attack)
  - Persuasion and Influence
  - Vetting sources of information/reliability
  - Stereotyping
  - Online crime reporting
- All students in KS4 study RE which includes topics on:

- The benefits of a multi-cultural society
- Prejudice and discrimination
- Racism
- The law and personal conviction
- Freedom of expression
- Does the government do enough to tackle extremism and radicalisation?
- Prevent awareness training for all staff (including school governors). On line training modules which are integral to the school CPD strategy and compulsory. All staff to be aware and familiar with channel flow chart protocol.
- Website information for parents/carers to advise on key indicators of extremism and procedures to follow.
- Resilience training with students

### **Management**

Strategy and delivery are monitored by an assistant headteacher together with the child protection officer.

### **Review**

The strategy is reviewed every year
